COLORADO AUTO
THIEVES TAKEN
IN LEE COUNTY

Youth with Stolen Car
and Check for \$4500
Captured Here.

Two more alleged automobile thieves have come to the end of their rope in Lee county and are now resting quietly in the Lee county jail, awaiting the receipt of instructions by Sheriff Schoenholtz from the authorities at Denver, Col., from which city they are said to have stolen a Chevrolet car on September 6th. The young fellows give the names: Harvey Deitz and Max Kober, and the Chevrolet car, which they are charged with having stolen from the Fred Kentz Motor Co. of Denver on September 6, has also been recovered.

The recovery of the car and arrest of the thieves was accomplished by Marshal Farver at Ashton last evening, after that official has been notified by Sheriff Schoenholtz to look for them. Suspicion was first aroused when the two young fellows tried to sell the car at Creston. Garage men there noted that it bore Colorado license plates, while Illinois plates had been thrown into the tonneau. Failing to see the car at the DeKalb county village the two young fellows started west, while the Creston garage men telephoned to Rockford to notify the police. Delay in getting telephone connections prevented them getting the word to Rochelle until after the thieves had passed through that city, and Rochelle officials in turn notified Sheriff Schoenholtz.

The Lee county sheriff sent the word to Ashton and Franklin Grove and at once started east in his car to intercept the thieves if they succeeded in getting by the officials in the two Lee county communities. When he arrived at Ashton he found Marshal Farver happily guarding his catch. The fellows have little to say concerning their escape, and refuse to explain a \$4,500 check on a Denver bank, found in one of their pockets. The Denver authorities have also been notified of the check and will investigate it.

Labor Blamed for
Higher Car Fares

Atlantic City, N. J., Oct. 7. — Blame for the increase in street railway fares throughout the country was laid at the door of the wage earners and not to the demands of capital by J. H. Pardee, president of the American Railway Association in his address today to the association here.

Necessity for providing revenues to meet the increased demand of the workers and not the desire of the railways to increase their returns has caused the general raising of fares Pardee declared. Cost is the main question in the railway industry today he said and the cost of labor is the predominant factor in that cost.

The public must realize, Pardee asserted that the question of wages between capital and labor is of vital interest to every one and is not confined to the two classes.

NEXT FIGHT IS
OVER SHANTUNG

Washington, Oct. 7.—Until senate leaders formally agree upon a definite program regarding a vote on the Shantung amendments, debate on the peace treaty will proceed along almost any line.

Half an hour's reading will bring the senate to that part of the pact relating to award of Shantung to Japan, and which the foreign relations committee would give back to China.

As the next fight will be on this provision, Senator Hitchcock of Nebraska, in charge of the democratic forces, indicated today he would insist upon early action.

LUTHERANS HOLD
ELECTIONS—FILL
CHURCH OFFICES

The congregation of St. Paul's Lutheran church met last night for the annual business meeting of the church reports were read from the various departments of the church, which were very gratifying. The treasurer's report by George H. Beckingham, treasurer, showed all bills for the past year had been paid and a substantial sum remaining in the treasury, a condition which has not obtained for some time. The financial secretary's report showed more people were contributors than had been in former years. The reports from the Missionary societies, Ladies Aid and Sunday School also showed great activity in all lines of church work and each treasury showed a balance on the right side of the ledger after meeting all obligations which have been extremely heavy the past year.

Following the reports of the various departments of the church the election of officers took place, which resulted as follows:

KING OF ITALY
SIGNS GERMAN-
AUSTRIA PACT

Treaty is Now Practically
Effective — 3
Powers Agree.

By Associated Press Leased Wire
Rome, Oct. 7.—A royal decree has been issued ratifying the peace treaty.

By Associated Press Leased Wire
Paris, Oct. 7.—(Havas)—King Victor Emmanuel of Italy signed a royal decree ratifying the German and Austrian treaties yesterday, according to a Milan dispatch to the Eclair.

Ratification of the German treaty by the Royal Decree of the King of Italy virtually completes the steps necessary for putting into effect the pact between Germany and the allied powers which was signed at Versailles on June 28 and which stipulated it would become operative when ratified by three of the great powers. The British parliament has already ratified the treaty and the document now awaits only the signature of King George before becoming effective in Great Britain.

Approval was given the convention by the French chamber of deputies last week, and the senate is expected to take similar action Friday or Saturday. The Royal Decree of the King of Italy, however, approval from the next parliament which will meet at Rome on December first but it is considered certain there will be little trouble in securing concurrence.

Italy, by the reported action of her King is the first of the powers to ratify the treaty with Austria.

Parishioners mourned the death of their faithful organist, and children sorrowed because their dear friend had passed beyond. The solemn requiem high mass was sung by Fr. Foley, Fr. Quinn, Fr. Conley, of Walton, Fr. Clancy of Fulton, and Fr. Morrissey and Fr. Carney, of Chicago.

Ruether who won the opening game of the series for Cincinnati was knocked out of the box in the sixth inning with the score standing 4 to 3 in the Reds' favor, no outs and a man on second. GENERAL WOOD
IS IN CONTROL
AT GARY RIOTS

1,500 Overseas Veter-
ans Take Military
Control in City.

By Associated Press Leased Wire

Gary, Ind., Oct. 7.—Gary, site of one of the United States Steel Corporation's greatest plants, affected for more than two weeks by the nation-wide strike in the steel industry, today was under military control of approximately 1,100 federal soldiers, commanded by Maj. Gen. Leonard Wood, commandant of the Central Department of the army. Five hundred more troops, fresh from riot duty at Omaha, Neb., were on their way here early today.

The call for federal troops was made by James P. Goodrich, Governor of Indiana, after thousands of strikers paraded and held mass meetings after being forbidden by the mayor, the police and the approximately 300 militia men stationed at Gary.

The course of the strike here has been marked by little violence. With the reports during the past week that strikers in increasing numbers were resuming their old places in the steel mills, the attitude of pickets, whose numbers also increased, became threatening and for a time it seemed as if a serious clash would be unavoidable.

Situation Became Threatening.

With the parade yesterday, however, according to a statement by Gov. Goodrich, the situation became so threatening that it was deemed advisable to ask for federal troops. The governor acted on the advice of Mayor Hodges, of Gary, and Harry B. Smith, state adjutant general, he said. "Both officials expressed alarm at the attitude of the 10,000 strikers in Gary and said they feared that the small number of state troops stationed there was insufficient to cope with the situation," read the governor's statement.

Proclaims Military Control.

Upon the arrival of the federal soldiers and the issuance of a proclamation by Gen. Wood proclaiming military control, the state militiamen were ordered to Indiana Harbor and East Chicago, Ind., where Gov. Goodrich declared martial law.

The approximately 1,500 men under Gen. Wood are regarded as sufficient to enforce his directions that no public meetings or assemblages be held and forbidding parades and demonstrations (Continued on Page 2.)

START SUIT TO
FORCE CHANGE IN
ASSESSMENTS

By Associated Press Leased Wire
Springfield, Ill., Oct. 7. — A petition for leave to begin mandamus proceedings against the Cook county board of review to compel the board to complete 1919 tax assessments on the basis of one-third instead of one-half the assessed valuation was filed in the Illinois supreme court by Alma Campe of Chicago today.

At the legislative session last winter, the first general assembly changed the basis of assessments from one-third to one-half of the assessed valuation in order to obviate a constitutional difficulty against increase by cities of their bonded indebtedness. At the same time sixty bills were passed reducing tax rates so that the result would not be increased taxes.

Would Affect Whole State.

The Cook county board of review, according to Frank Nollman, chairman of the State Tax commission, has undertaken to assess taxes on the fifty per cent of assessed valuation basis, and at the same time to use the old rates. This would have the effect of increasing taxes.

Any ruling the supreme court might make would affect the entire state, at least indirectly.

LANE WILL HEAD U. S.

Action, No Oratory, Marks
Opening of Industrial
Conference.

By Associated Press Leased Wire

Washington, Oct. 7.—Disagreement over rules proposed for the governing of the industrial conference called by President Wilson received its conference adjourning suddenly today after Franklin K. Lane secretary of the interior had been elected permanent chairman. It will meet again at 2:30 o'clock this afternoon.

LANE IS CHAIRMAN

By Associated Press Leased Wire
Washington, Oct. 7.—Secretary Lane has been chosen as permanent chairman of the industrial conference in session here and will accept.

The report of the committee on rules provides for all sessions being open to press and public.

Under the rules voting will be by

groups representing employers, organized labor and the public, the majority of delegates in each group to decide that group's attitude, but "no expression or conclusion shall be arrived at unless all three groups are in accord."

Wilson May Talk

Secretary Lane told the conference the news from the White House was that President Wilson might be able to address the delegates before they adjourned.

Permanent Secretaries

The two permanent secretaries of the conference will be Lathrop Brown, former representative from New York, and later a special assistant to Mr. Lane, and Joseph J. Cotter, Mr. Lane's present executive assistant.

Mr. Lane was one of the early arrivals at the Pan-American Union and smilingly admitted he had come to take the place tendered him by the nomination committee of the conference.

AIM TO GET ACTION

By Associated Press Leased Wire
Washington, Oct. 7.—With set speeches and fixed program, the usual attributes of conventions and congresses, entirely omitted, and with the spirit already expressed to secure action rather than oratory, President Wilson's industrial congress, was prepared for a busy session today.

Committee on nominations for permanent officers, and on rules, worked far into the night preparing reports to forward proceedings today. Chief interest centered in the selection of a chairman. There was no indication early today of the committee on nominations selection.

As proposed by committee, the rules provided that all conclusions and decisions must be arrived at by unanimous vote of the three groups representing capital, labor and the public, while the decision of each individual group would be by a majority of the members of that group. The rule was attacked by John Spargo, of New York, a delegate representing the public.

DIXONITE KILLED
AT ROCKFORD AS
HE TOOK NEW JOB

John A. Holzhour's
Head Crushed By
Elevator Weight.

Rockford, Oct. 7.—Unheeding a warning not to look down the adjacent elevator shaft given only a few minutes before, John A. Holzhour of Dixon, age 26, employed by the Otis Elevator company, was instantly killed when a three thousand pound weight struck his neck while he was assisting in the installation of a new elevator in the D. J. Stewart & Co. dry goods store, 113-115 South Main street, at 4:30 o'clock Monday afternoon.

Holzhour, who had come to Rockford from Dixon yesterday morning to enter the employ of the elevator company, was standing on the top of the cage that operated in the west shaft while he worked on the track above when the accident happened. The cage that he was standing on was between the second and third floors.

Given a Warning.

"Be careful and don't look down into the other elevator shaft," Jasper Pennington, foreman of the elevator company's workmen, yelled to Holzhour before he went to work in the pit at the bottom of the shaft.

A moment later William H. Marston, the elevator operator employed by the store, started to ascend from the first floor in the cage in the east shaft with E. P. Pendergast, another employee of the Otis company. The cage had moved but a few feet when it stopped between the floors from lack of power. Looking up they saw the dangling form of Holzhour pinned by the head with the elevator weights to a beam.

Looked Into Shaft.

It seemed that Holzhour disregarded the warning given him, had immediately leaned over a beam between the two elevators from the shaft he was working in to the other shaft, to look down and possibly see what the danger could be. As the cage operated by Marston started to rise the weight that runs up and down in the space between the two shafts started to descend striking Holzhour's neck, crushing it to the beam and resting there. The power cables became disconnected from the cage when the weights stopped, causing the current to be shut off so that the cage stopped between the two floors.

Persons who witnessed the accident were spellbound and no one attempted to rescue Holzhour until Floyd Doyle and Charles Kelsell, two soldiers stationed in the recruiting service here, who were passing the store, were called in by the clerks and went down into the shaft after the body.

Escaped Decapitation.

Because the cage had just started from the first floor when the accident occurred and therefore was not going fast the weights only broke Holzhour's neck and bruised one shoulder, not even breaking the skin. It is said that had it been going faster it would have decapitated him. The weight weighs about a ton and a half.

Coroner Martin H. McAllister, who took charge of the body, flayed the building inspector last night, following his investigation into the cause of the accident.

"There should be screens in the shaft when twin elevators are used so that one shaft is completely separated from the other and no one can pass from one to the other," said Coroner McAllister. "Rockford's building inspector should get out and inspect buildings instead of sitting in his office and inspecting plans. My conception of a building inspector is one who inspects buildings to protect human lives."

Home at Dixon.

Lester Wilhelm of Dixon, a brother-in-law of Holzhour, who was notified of the tragedy by the coroner, came to Rockford last night to arrange for the transportation of the body, which will be taken either to Dixon or to Myersville, Pa., for burial.

John A. Holzhour was born at Dixon about twenty-six years ago, and was a first lieutenant in the regular army, having been stationed for four years at Panama previous to discharge from the service at a southern cantonment recently. Since then he has made his home with his sister and her husband at Dixon until his brother-in-law got him the job he was working at when killed.

He is survived by a mother at Myersville, Pa., a sister, Mrs. Lester Wilhelm at Dixon and another sister in Chicago.

A jury will be sworn in today by Coroner McAllister to investigate into the death and an inquest will be held within a few days.

The general convention will open tomorrow.

SANDRA THE JEALOUS

By JANE PHELPS.

A SURPRISE CHAPTER XXII

After Everett left me I recalled Walter Kemp's question the night he called upon me and we danced to the music of the victrola.

"How could you marry a man so much older than you are—a widower?" Then his next remark: "He was not so particular with the first Mrs. Graham." When Everett came in that night, he had said I was too young to discriminate and had forbidden me to receive Kemp. I had not seen him since; now I wouldn't dare to. And to be honest, I really felt I didn't want to. It was a sort of reaction against myself because of trying to put him in the place Everett occupied with Leola I think.

The third day I was in bed Everett came in early and sat with me.

"Would you like that pretty Miss Grandon to make you another visit, Sandra?"

I was so astonished, that for a moment I couldn't answer. He had been so horrid to Rose, given her reason to think I had nothing to say in my own home, that it was inconceivable he would let me ask her to visit me again. "You will be 20 years old next month, Sandra—shall we have her then?"

I was surprised and delighted that he had remembered my birthday, and also that he had given it enough thought to plan something to please me.

"That would be lovely!" I exclaimed enthusiastically. So much so that he laid his hand on mine and cautioned: "There, don't get so excited or the doctor won't let me do anything for you."

"If she comes, Everett, will you—be nice to her?" Then: "She is a dear, but she talks a lot."

Everett laughed heartily.

"I am glad you realize that! It will make you careful what you confide to her. Miss Grandon is very pretty, very attractive in many ways. Invite her if you like."

Nothing more was said about it, but the next morning I had Betty bring my desk pad and writing materials. I wrote a long, chummy letter, asking her

to come to Hendon and be with me on my birthday.

"Everett suggested it," I added as an afterthought, but one which I knew would have a great deal of weight with Rose. For in spite of things she had said, I saw plainly when we visited my home that she thought Everett wonderful, and that she liked him. "Make your plans to spend two weeks," I told her. Everett and also Mrs. Barr had cautioned me to put a limit upon time when in visiting house guests. I was in a softened mood in which I remembered what they had said and wanted to please them.

I showed my letter to Everett that night and he approved.

"A very nice letter, Sandra. You are expressing yourself much better than you did a while ago. You will own that Mrs. Barr has helped you, won't you, now?"

"Yes, and I am going to try to improve myself, Everett. I was cross because of her at first. It looked as if you were ashamed of me and had hired a teacher so I wouldn't embarrass you. But I don't feel that way any more, so I will be able to do better. You know when you feel cross and hurt, you can't learn very much."

"I should say not!" again he laughed. Then: "Get the idea that you are too old to learn out of your head, Sandra. If you realized you will some day—the pleasure you, yourself, can get from being able to appreciate books and people, you never would begrudge the time you give to making yourself mentally keen. As you grow older you will regret wasted opportunities. If I were your age, that is perhaps the one thing I would do that I did not do then—use my time to improve myself."

He said nothing more. But I was impressed with his seriousness. Yet after a time there came the thought: I wish he had said if I were your age, you would have been my first love, and I would have been your first love. Betty came with my dinner, because I had not been the first, the only love of my husband.

Tomorrow—Barrett Edmonds hears of Sandra's Accident.

U. S. WARSHIPS WITHDRAW FROM DALMATIAN PORT

Desire to Keep Out of Adriatic Trouble Prompts Action.

By Associated Press Leased Wire. Rome, Oct. 7.—American warships, which have been at Spalato, Dalmatia, since early last December are to be withdrawn by Rear Admiral Phillip Andrews on orders from the United States according to advices reaching this city. It is reported that Admiral Andrews has declared the United States wishes to avoid complications in the Adriatic and has notified Italian authorities that any aggression on the part of Italian troops against the Spalato-Traù zone would be "considered as directed against the United States."

Advices state that American food supplies are to be removed from Spalato. American warships went to the Adriatic soon after the armistice with the Central Powers had been negotiated. They took over a section of the coast which has since been known as "the American Zone."

Reports have stated that inter-racial feeling is bitter along the Dalmatian coast and American marines and blue jackets are said to have been forced to intervene between Italians and Jugoslavians at Spalato.

A MANGLER OF MELANCHOLY "PECK'S BAD BOY"

In hundreds of cities in this country, "Peck's Bad Boy" which is billed for opera house tomorrow night, Sept. 8, holds the record for attendance. There is scarcely a theater goer in this community who cannot recall some time or other when this favorite old comedy with music, has not "stood them up" in a local playhouse. Particularly true is this of matinee performances, for "Peck's Bad Boy" is without an equal as a play for the children.

The old favorite has not been seen in this locality for some time, and its return will be welcomed by the many people who remember it for past enjoyable evenings. It has been brightened and refreshed with the addition of new songs and dances and the interpreting company is the best which has ever been congregated for the play.

Following the action of several score men wearing the uniform of the United States army in leading the parade against orders of the mayor and police yesterday, Gen. Wood's proclamation ordered that "all men in the uniform of the United States, whether in the service of the United States or otherwise, who are not part of the United States armed forces on duty within the city limits, will be examined, and those who are in the service of the United States will be attached to an organization on duty in the city limits and continued on duty during the present disturbance."

be handed over to the civilian officers and tried in courts of law instead of by courts martial, he said.

The military rule will be patterned after that put into effect at Omaha, the officer stated, or like that in the occupied portions of Germany, where many of the federal soldiers here recently saw service. The military rule will be directed mainly through the regularly constituted authorities.

Immediately upon their arrival here the soldiers began patrolling and early today Gary showed no indications of disorder.

Troops Near Helmets.

The troops wore steel helmets but did not walk their posts with fixed bayonets.

Ample reserve forces were on hand, it was stated to check almost any outbreak, no matter how extensive. Four one-pounder guns and a machine gun detachment were among the force. The usual infantry equipment and reserve supplies made up the strength of the command, it was said.

Picketing by strikers at the various plants will not be stopped, Capt. Charles Bolte, officer of the day, stated early today. It was not intended to interfere with the general course of the strike except insofar as disorder and destruction of property was concerned.

Picketing will not be interfered with by the troops, he said, except where crowds congregate or there is an attempt of violence.

The federal troops here are from the fourth and sixth overseas divisions. The men from the fourth division, 916 men and 109 officers, were sent here late yesterday in motor trucks from Fort Sheridan. They recently were transferred there from Fort Dodge. Arrival of the troops was greeted by cheers as they drew up in the public square and prepared their light guns, machine guns, rifles, automatic rifles, hand grenades and other items of equipment for any emergency.

Gen. Wood preceded the troops by several hours. One of his first actions here was to call a conference of city officials and strike leaders. Oscar Anderson, a strike leader, asserted after the conference he was satisfied with the military control, adding that the "strikers now will get protection and we will win the strike."

PERIOD OF DANGER IN PRESIDENT'S ILLNESS APPARENTLY PASSED

Physicians Hopeful—Must Be Quiet Several Days.

By Associated Press Leased Wire

Washington, Oct. 7.—President Wilson continues to improve and he is eating and sleeping well, said a bulletin issued at 11:25 a. m. today by Rear Admiral Grayson, the President's physician. Rear Admiral Stitt, head of the naval medical school here, and Dr. Sterling Ruffin of this city.

The bulletin follows: "White House, Oct. 7, 1919, 11:25 a. m. 'The President's improvement has continued. His appetite is decidedly better and he is sleeping well.'"

"Grayson, 'Ruffin, 'Stitt.'"

The bulletin was issued after the usual morning consultation between the physicians. Supplementing the bulletin, Dr. Grayson said the President's good appetite was a favorable sign.

Dr. Grayson said the President was restless and desired to attend public matters. However, the doctors insist that their orders for complete rest be strictly carried out and the President will be kept in bed for the present.

In the view of Dr. Grayson, the President, despite the improvement shown during the past few days, is not yet out of danger and the physicians fear that any undue excitement now might offset the gains he has made.

There is no intention to send the President away from Washington.

son showed further improvement this morning after "a very good night" and is anxious to get back to work, White House officials said.

Rear Admiral Grayson, the President's physician, will keep the President in bed for a time yet, despite Mr. Wilson's earnest desire to attend to official duties.

Messages of sympathy continued to reach the White House today. One from President Ador of the Swiss Confederation, said:

"The Swiss Federation Council, truly grieved to hear of your illness begs you accept its wishes of speedy and full recovery."

A cablegram from President D'Artigue, of Haiti, said:

"With most sincere wishes for speedy recovery I send to His Excellency, the president of the United States, sentiments of genuine sympathy in which the President and people of Haiti heartily join."

KING GEORGE INQUIRES.

By Associated Press Leased Wire. London, Oct. 7.—King George, who is greatly concerned over the illness of President Wilson, today sent his private secretary, Col. Clive Wigman to the American embassy to seek the latest news regarding the President's condition. Col. Wigman also was instructed to express His Majesty's sincere

sympathy with President Wilson and Mrs. Wilson.

By Associated Press Leased Wire. Washington, Oct. 7.—President Wilson whose condition has been improving for several days had regained so much strength today that his physicians seemed very hopeful that the worst period of his illness had been safely passed.

They still indicated there was a possibility of a setback, however, and insisted that he remain in bed. They thought it might be several days before he could give attention to official business and much longer before he would be able to resume his duties.

LONDON NEWS TRIBUTES

Farmers Excel As Producers

Eight-Minute Wheat

Less than a hundred years ago a bushel of wheat represented three hours and three minutes of labor. Now, with modern farm tools, it represents eight minutes' labor—a saving of almost three hours.

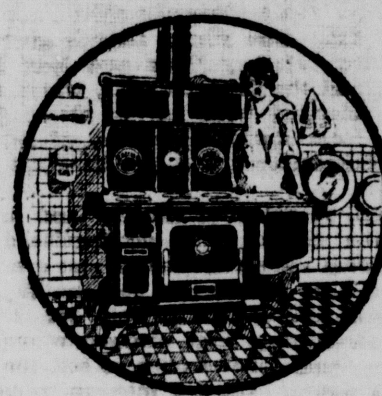

The American farmer was able to do this because he scrapped the old for the new, the reaper for the binder, the single plow for the gang plow and so on with all his farm machinery. As a manufacturer, he has put it all over other manufacturers until he is the greatest per man producer known to the world.

The Farmer's Wife

The farmer's wife is also a manufacturer. She manufactures food for fifty million people. Three times a day she fires up and cooks for her household.

But how about machinery? Is her range modern or the old fussy, freaky, ugly model of twenty-five years ago? Is the range covered with ornaments to catch dirt? Is it full of hinges, catches and latches like the old-style automobile? If it is, "scrap" it. Scrap it quick and buy an up-to-date, smooth-bodied range that cleans like a dish.—The Copper-Clad.

Make Her Happy

This is the Copper-Clad Range that makes a woman happy—that saves a shovel of coal at every meal, because built like a thermos bottle—and that never rusts out because a sheet of pure copper is placed between the sweaty asbestos and iron body.

Come and see the Asbestos Sweat. See the sheet of pure Copper. See the Dry Air Space Space that saves so much fuel. See for yourself—then you know.

PICNIC HONORED SOLDIER—
 An all-day picnic was held at Castle Rock on Saturday, October 4th, in honor of Norman McClannahan, who just recently returned from France. Mr. McClannahan was a member of Company B, 18th Infantry, 1st Division, said division being twice cited for bravery and good conduct in action, having never failed in obtaining the object. Seriously wounded in the Argonne, when he was shot through the right lung by a machine gun bullet, Mr. McClannahan was confined to the hospital for three months before being allowed to return to his company. His division received an order from General Pershing, complimenting the action of the men in the battle of the Meuse-Argonne, the following being a part of said order:

"The commander-in-chief desires to make of record in general orders of the American Expeditionary Forces, his extreme satisfaction with the conduct of the officers and soldiers of the 1st Division in its advance between October 4th and 11th, 1918. During this period the division gained a distance of 7 kilometers over a country which presented not only remarkable facilities for enemy defense but also great difficulties of terrain for the operation of our troops.
 "The Division met with resistance from elements of 8 hostile divisions, most of which were first-class troops, and some of which were completely

rested, and the fighting was always of the most desperate kind.
 "Throughout the operation the officers and men of the division displayed the highest type of courage, fortitude, and self-sacrificing devotion to duty.
 "In addition to the many enemy killed in battle the division captured 1407 of the enemy, thirteen 77-mm field guns, ten trench mortars, and numerous machine guns and stores.

"The commander-in-chief has noted in this division a special pride of service and a high state of morale, never broken by hardship nor battle.
 "By Command of Gen. Pershing."

After the 1st Division had boarded the U. S. S. Mobile for home, Marshal Poch boarded the ship and decorated the entire division with next to the highest honors given out by the French Commander.

The picnic was attended by about one hundred relatives and friends of Mr. McClannahan. Boating, bathing, dancing, games and music, with a bountiful repast and all the ice cream and pop and candy the crowd could consume, made a day full of enjoyment. The guests included people from Dixon, Natchusa, Ashton, Rochelle, Milledgeville, Forreston, Ill., and Blue Earth, Minn. The company presented Mr. McClannahan with a generous purse as a token of their appreciation of his services abroad for his country.

EPISCOPALIANS PLAN BLOW AT DIVORCES— BAR NEW MARRIAGES

Proposed Church Law Bars Marriage of Any Di- vorced Person.

By Associated Press Leased Wire
Detroit, Mich., Oct. 7.—Clergymen of the Episcopal church will be prohibited from officiating at the marriage of any person who has been divorced, if the general convention of the denomination to open here Oct. 8, adopts the report of a joint commission of bishops, clergy and laymen.

The report, signed by the bishops of North Carolina, Chicago, Long Island, Lexington and Vermont, proposes a new Canon which reads:

"No marriage shall be solemnized in this church between parties, either of whom has a husband or wife still living who has been divorced for any cause arising after marriage."

A minority report, signed by the Rev. Leighton Parks, rector of St. Bartholomew's church, New York, and a member of the commission, would make the Canon read:

"No minister, knowingly, after due inquiry, shall solemnize the marriage of any person who has been or is the husband or wife of any other person then living from whom he or she has been divorced."

A similar proposal before the general convention of 1916 was adopted by a majority of the clerical votes in the House of Deputies but was defeated by a narrow margin of lay votes. The House of Bishops did not reach a vote on the matter.

Under the present Canon law of the church the innocent party to a divorce may be married by an Episcopal clergyman if the bishop, after an examination of the court records and consultation with his legal advisor, gives his consent. But even then no clergyman is compelled to officiate at such a marriage.

The proposed legislation makes no distinction between the innocent and the guilty, absolutely prohibiting Episcopal clergymen from solemnizing the marriage of divorced persons.

Income Tax Reports Check Millionaires

By Associated Press Leased Wire
Washington, Oct. 7.—Despite the popular belief that the number of large fortunes has increased during the last few years, income statistics made public today by the Bureau of Internal Revenue showed a considerable decrease for 1917 of those reporting incomes in excess of \$150,000, but a marked increase in those reporting net incomes of less than \$150,000.

The figures were considered even more surprising as regards incomes of a million dollars and over. There was a decrease of 45 in such incomes during the period of the report, 206 being reported in 1916 and only 141 in 1917.

TURKISH CRISIS
LIKE FIUME—IS
KNOTTY PROBLEM

Situation in Asia Minor
Beyond Government
Control.

By Associated Press Licensed Wire
Paris, Oct. 7.—Turkish Nationalist troops said to number upwards of 200,000 men and commanded by Mustapha Kemal seem to have precipitated in Asia Minor on a major scale a crisis similar to that which arose in Dalmatia when Captain Gabriele D'Annunzio seized the city of Fiume.

There is a feeling that the situation in Asia Minor has gone beyond the control of the Turkish government and that the allied powers are helpless, at present to do anything to bring military pressure to bear and afford any appreciable relief.

There are some who question whether the powers are sufficiently united or inclined to intervene.

The task of working out the future status of Turkey has not progressed far in the peace conference so far as shown by actual results. Turkish delegates were invited to come to Paris "in an advisory capacity" some time ago, but they have since returned to Constantinople, at the request of the conference it has been reported.

TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read the large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

An Internal Treatment for Piles (Hemorrhoids)
Gives absolute relief from all pain and suffering. Has never failed. Guaranteed.
Many people have been disappointed because they have been led to believe that their case was hopeless and that there was no remedy for their case. Go to your druggist and get an original bottle of Miro Pile Remedy, the discovery of a clever Ohio chemist, that taken internally, passes unchanged through the stomach and intestines, and thus reaches the source of the trouble whereby, by its soothing, healing antiseptic action, it first allays and then by direct contact with the ulcers and piles causes them to heal and disappear forever.
It's positively marvelous how speedily it acts. Blessed relief often comes in two or three days, even in cases that have resisted all previously known treatments, really wonderful results have been accomplished. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded.
All pharmacists dispense Miro or can get it for you on short notice. Surely it is worth the little trouble to obtain to be rid of piles forever.
IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.
